Kimberly Annaker

Besides your look, what else do you believe is crucial for success as a model?
I believe it's about a person's confidence to look in the mirror and love yourself just the way you are as well as inside.

What excites you the most about modeling?
Knowing my face will be published and recognized in the public eye.

What areas of modeling are you most interested in?
I'm interested in the areas of fashion, lingerie and swimwear.

How do you prepare for a modeling photo shoot?
I prepare by practicing my poses in front of a mirror and making sure I'm prepared with everything I need for a shoot.

What would you say is your best asset?
My best asset is my determination to succeed.

What is the best info you can give a new model?
My advice to other models is don't be afraid to go for it. Determination and ambition will get you far no matter how many rejections you may get, there is always a door that opens up when you strive for something your passionate about.

As a model, what would you say has been your biggest obstacle?
My biggest obstacle as a model was searching for the right people to work with because there are a lot of frauds. If you had to walk away from modeling today, what memory would you take from it? I would be recognized as a model in the public eye as the young mom who struggled in life but wasn't giving up on her dream no matter what life tossed her for not only herself but for her kids.

If you had to walk away, what would you like to be remembered most for?
I would be remembered most by my endurance to live my dream and never give up.

What goals are you pursuing for the future and what would you like to accomplish?
I would like to accomplish my dream as another Latin actress who made it to the big screen.

Are there any magazines you would like to see yourself on the cover of?
I would love to see myself on the cover of Vogue, Cosmo, Latina and Motherhood magazines.

What career achievements are you most proud of?
My career achievements I'm proud of is freelancing myself as a model and getting to where I'm at now.

Do you have any upcoming projects you people to know about?
Yes, I have upcoming photoshoots for Volomagazine, bikini Inc USA, intense desire magazines and many more to come.

What is fun and rewarding about modeling?
Modelling has been fun and rewarding for me because I got to make new friends and connections which have opened opportunities for me.

What do you dislike about modeling?

I dislike many agencies who have been superficial and discriminating towards my height and lack of money for representation.

What are your most memorable and most forgettable modeling experiences?

My most memorable experience was working for well-connected magazine photographers. My most forgettable experience was being turned down by some agencies due to my shortness and not being able to come out my pocket for their representation of me.

Do you have any crazy/exciting/weird shoot story that you would like to briefly share?

I never really had a photoshoot that was crazy or weird so far.

What is your favorite type of photo shoot to do?

My favorite photo shoot I enjoyed doing was lingerie and swimwear.

What are the top three things you like to shoot?

My top 3 things I would like to shoot would be a duo shoot with a male model, shoot with my kids and a shoot in an exotic place.

How would you describe working with the photographer?

The photographers I have worked with have been very respectful and professional during the shoots.

What is the funniest thing to happen to you on a shoot?

The funniest thing that has happened to me during a shoot was getting eaten by mosquitos and having a red dot on my butt while shooting.

What do you look for in a photographer before shooting with him/her?

I look for professionalism and behavior towards me.

If you weren't modeling what do you think you would be doing?

If I wasn't modeling I would be home looking for a boring job.

Where do you want your career to be in two years?

I want my career in 2 yrs. to be a high paid model and actress with many offers for movies and magazines.

How has modeling changed other aspects of your life?

Modeling has changed some aspects in my life by opening new opportunities for me to lead me closer to my goals.

Who are some of your favorite models and why?

My favorite models are Cindy Crawford and Mila Milokovich. They have inspired me by showing that they are more than just a pretty face on camera and that you can live real lives as mother's and still make a difference in the world apart from their fame.

Which magazines, websites, blogs and catalogues do you visit most often?

I really don't read many magazines, blogs, websites or catalogues because I'm busy with my kids and my career.

What is your mantra?

My mantra every day is trying to take the world one day at a time.

What distinguishes a good model from a bad one?

I believe what distinguishes a good model from a bad one is their inner beauty rather than outer beauty.

What distinguishes a good photographer from a bad one?

I believe what distinguishes a good photographer from a bad one is their professionalism and their eye to capture the beauty of a person.

What advice do you have for other aspiring models?

I would let a model know to always do background checks on any photographers that want to work with you because there are many phonies out there that own a camera and claim to be professionals.
