# Welcome Ito the Issue

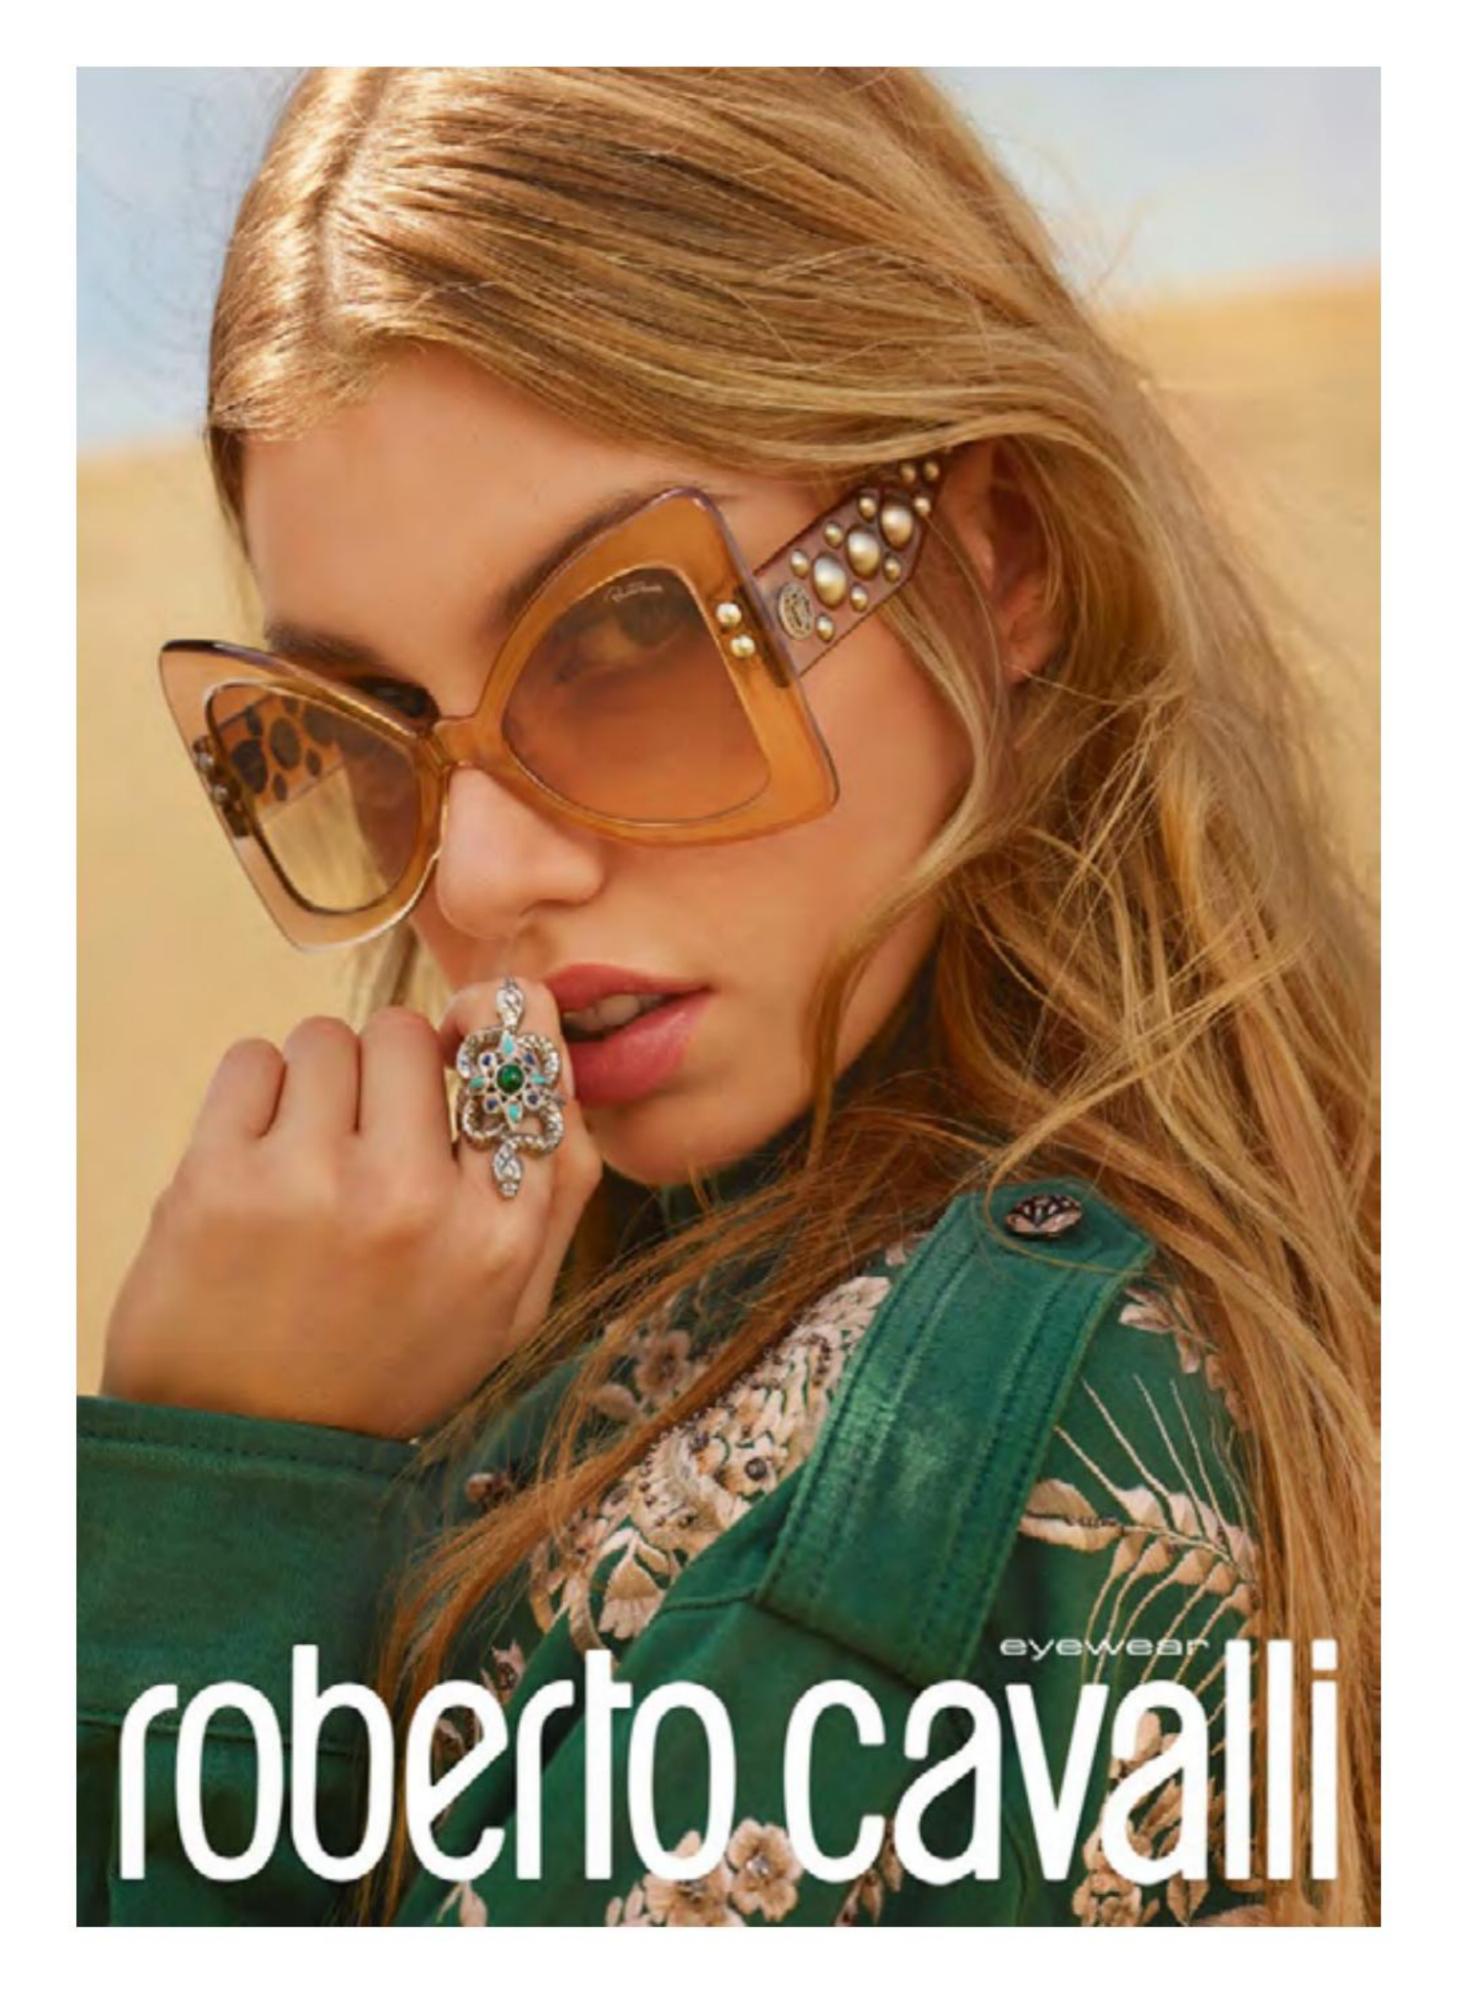

pring is often associated with the new season. In this issue we celebrate the notion of looking ahead into the future. With the new season comes the endless search for a new look, a fresh approach, a different perspective. Every season, new styles become pervasive—eliciting a powerful response and an elated sense of excitement and anticipation of newness.

Our cover star this month, Katherine McNamara is the epitome of youthful and a refreshing, playful beauty. With her latest role in the ethereal fantasy series, Shadowhunters, Katherine shares with us what inspired her to become an actress and gave us these words to reflect upon--- "We live in a world that focuses so much on beauty, perfection, and filters that we forget sometimes the that the real beauty of humanity is in the imperfections. There is nothing wrong with striving to be your best self, but don't completely change who you are to fit into a mold. That's what inspires me to create these characters - the opportunity to exhibit human flaws in a positive light. Actors go to the uncomfortable emotional places and confront these issues in the hopes that it will inspire people to reflect upon their own lives and any issues they may be facing." Beautifully said.

Welcome to the issue.

# **Q&A with KATHERINE MCNAMARA**

#### Where did you grow up?

I grew up in Kansas City, Missouri. Barbecue, baseball, and fountains. I loved growing up there.

#### What inspired you to get into acting?

We live in a world that focuses so much on beauty, perfection, and filters that we forget sometimes the that the real beauty of humanity is in the imperfections. There is nothing wrong with striving to be your best self, but don't completely change who you are to fit into a mold. That's what inspires me to create these characters - the opportunity to exhibit human flaws in a positive light. Actors go to the uncomfortable emotional places and confront these issues in the hopes that it will inspire people to reflect upon their own lives and any issues they may be facing.

#### Did you have any other aspirations about what you wanted to be before pursuing acting?

Yes! I actually never intended to become an actor. My initial plan was to go into finance. Economics was my passion and I wanted to become a financial analyst, CFO, or economist. However, I ran into a family friend who was directing a community theater show, gave it a shot for kicks, fell in love and well the rest is history. However, I fulfilled by economics dreams by pursuing a Bachelors of Science in Business Administration.

#### You star in the very successful and thrilling show, Shadowhunters. Can you describe the role you play?

First of all, thank you. Second of all, I play Clary Fray, an art student from Brooklyn who discovers that she is a Shadowhunter, a half angel, half human demon hunter. As she is thrown into this world, she faces several demons both literal and figurative. In the second season in particular, you see a new maturity to Clary as she begins to understand what it means to be a shadowhunter and how to use her unique talents to find her place in the world. What I admire most about Clary is her inner fire and unwillingness to accept defeat. No matter what happens to her, she always has this ember of hope that she holds on to. That is something we all could use right now.

#### What is the most challenging part of this role?

The most challenging parts of the role are the most exciting. Physically the role is very demanding. We do most of our own fighting and stunts so there is a good deal of training required in our off time. I really enjoy the challenge of learning the different martial arts as well as pushing my fitness to new levels. Also, they continue to expand our characters as they develop and providing interesting and challenging arcs for all of us. Overall, the show is a huge learning process for me and I'm loving every minute of it.

# Shadowhunters is set in a fantasy setting where there are vampires and werewolves and fairies- have you always had an interest in these type of fantasy story lines as a kid? What intrigued you about this part that made you want to play this character?

I've always loved fairy tales and stories of fantasy. I have also always loved stories with empowered, independent female characters at the helm. SHADOWHUNTERS provides both of those for me. I have always held the belief that there is a little bit of magic to be found in the world if we only choose to see it. Now, I am able to live and create that magic every day. Also, Clary provides an interesting journey of a girl who is thrust into responsibility and gravitas without any preparation. Her growth into who she is meant to become is truly the hero's journey and always an exploration. Her passion and drive for what she does matches mine for my job. She has fire and that inspires me every day.

## What does season 2 have in store that viewers should stay tuned for?

I'm not at liberty to reveal too much at this point, nor would I want to spoil the show for anyone. But what I can say is that season 2 takes the Shadow World to the next level. Now that we have had a chance to establish these characters, relationships, and the world, we now have the opportunity to dive deeper into the story. This season, we push the characters beyond their limits, off balance them, which pushes them to places and forces them to reveal parts of themselves you don't get to see even in the book series. No one is safe, nothing is sacred, and no relationship escapes unscathed. What these characters are learning is there is no pure good or evil in this world, is all shades of grey in a world of shadows.

### What is a typical day on set like for you?

Something I love most about SHADOWHUNTERS is there is never a "typical day." There are so many aspects and elements to the show, every day brings a new challenge. Some days are more focused on emotional character driven drama while others are completely action based. Never a dull moment on this set!

#### How would you describe your style?

I would describe my personal style as classic with an edge. I stay in a neutral color palette and classic silhouettes accented with unexpected pieces to add a bit of edge. People say I wear too much black but I love it. Its simple, chic, and makes me feel a little badass every day. Plus, I can play more with putting different pieces together if they are all the same color.

### Do you have any fashion icons that you look up to?

Emma Watson, Gigi Hadid, Audrey Hepburn, and 90s Winona Ryder.

# What are 3 staple clothing items every girl should splurge on for a sophisticated wardrobe?

LEATHER JACKET - casual to dressy, badass to boho, a leather jacket is the chameleon of a wardrobe. Plus, if you invest in a quality piece it can last for years.

VERSATILE BOOTS - find a good pair of boots that match your style and wear away! Not only are they comfortable and functional, they make any look just a little bit badass.

KEEPSAKE JEWELRY - look for a piece that you connect with, that means something to you or makes a statement about who you are. Something simple and versatile that can go with any look can personalize your wardrobe.

## What are your 3 favorite apps on your phone right now?

Spotify - I'm always looking for new music.

Buzzfeed - It has a great balance of fun and informative pieces

Pinterest - Baking, home decor, nail colors, makeup trends, new workouts it has it all!

#### What is your most played song this month?

Shape of You Ed Sheeran Sthlm Nights Peg Parnevik Somebody Else VERITE

#### What is your current go-to lip color?

My current go to lip for everyday life is Clinique's chubby stick in Whole Lotta Honey. However for going out or any other special occasion I love playing with ColourPop lips. They have so many amazing colors!

## Do you have any current favorite must-have hair products?

Oribe is my current obsession when it comes to hair products. Their shampoo and conditioner keeps my hair healthy. The texturizing spray holds while still keeping it touchable. The Balm d'Or Heat Styling shield literally saves my hair from sure destruction when heat styling.

## Where would you most like to travel to that you haven't been to yet?

Everywhere. Travel is one of my favorite pastimes. Give me my passport and a plane ticket and I'm ready to go. Travel provides such a learning experience and insight into other points of view, I find it truly expanding. Truly that's a hard choice to make because I do want to see the world. I think Europe is my next venture, maybe Thailand... South America? Clearly I have some decisions to make...

#### What is your spirit animal.

My spirit animal is a zebra I think...
Its powerful, energetic, and lives life in black or white, it just doesn't always know which is which. I always want my life to be clear cut, right or wrong, a or b, up or down, but I'm learning that's not always the case... I have to remind myself to accept the grey areas of life a bit and that it's okay if I don't know if I'm white with black stripes or black with white stripes.

#### Describe a typical day off of work.

Again, my days are never typical and that's the fun of it. If I have time off, I'm working on my Masters in Literature, probably hitting the gym or a spin class, eating Mexican food, and spending time with friends. I'll probably be at a game night playing mafia or running charades until the wee hours of the morning.

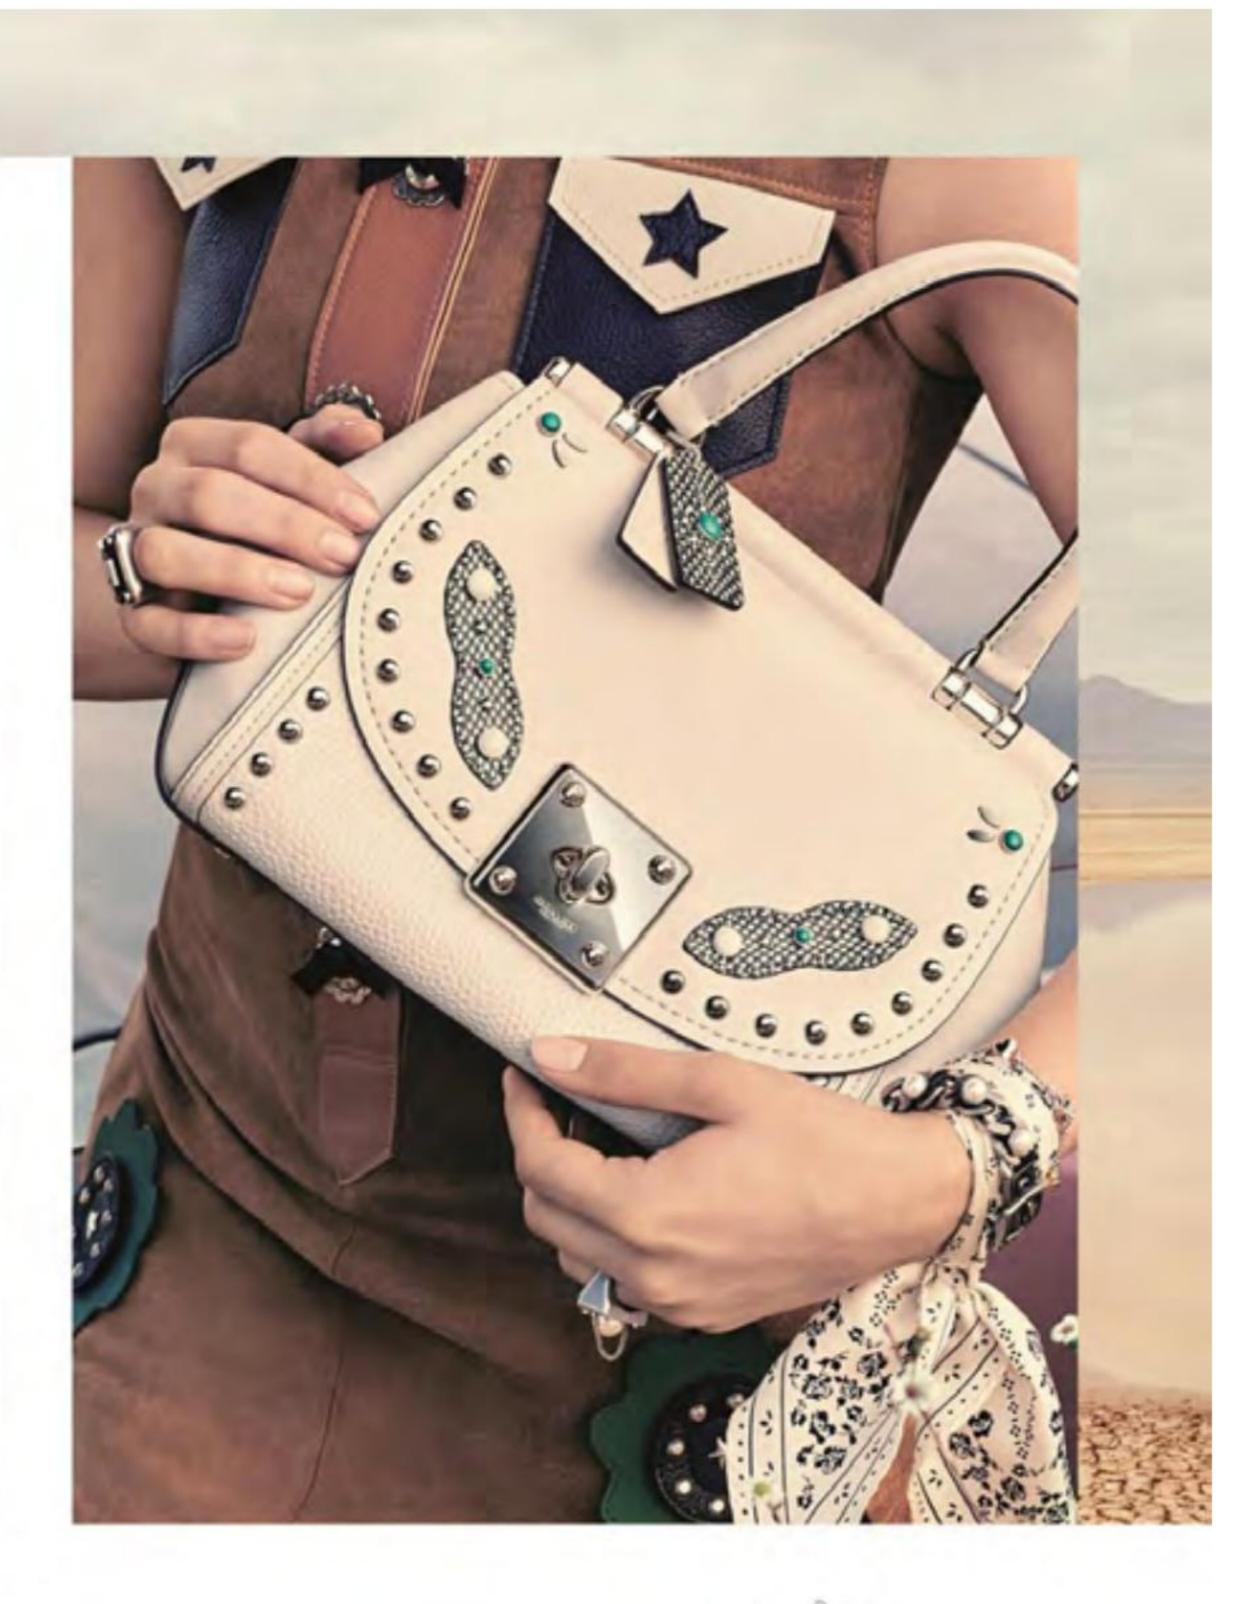

## Do you have any upcoming projects that you can tell us about?

Music! Aside from SHADOWHUNTERS and MAZE RUNNER: DEATH CURE, I am writing and recording music in my spare time. I really enjoy having a creative outlet in which I'm not playing a character. My music allows me to share a little bit of who I am with the world and it's very refreshing. I can't wait for people to hear.

#### What do you love about Modeliste?

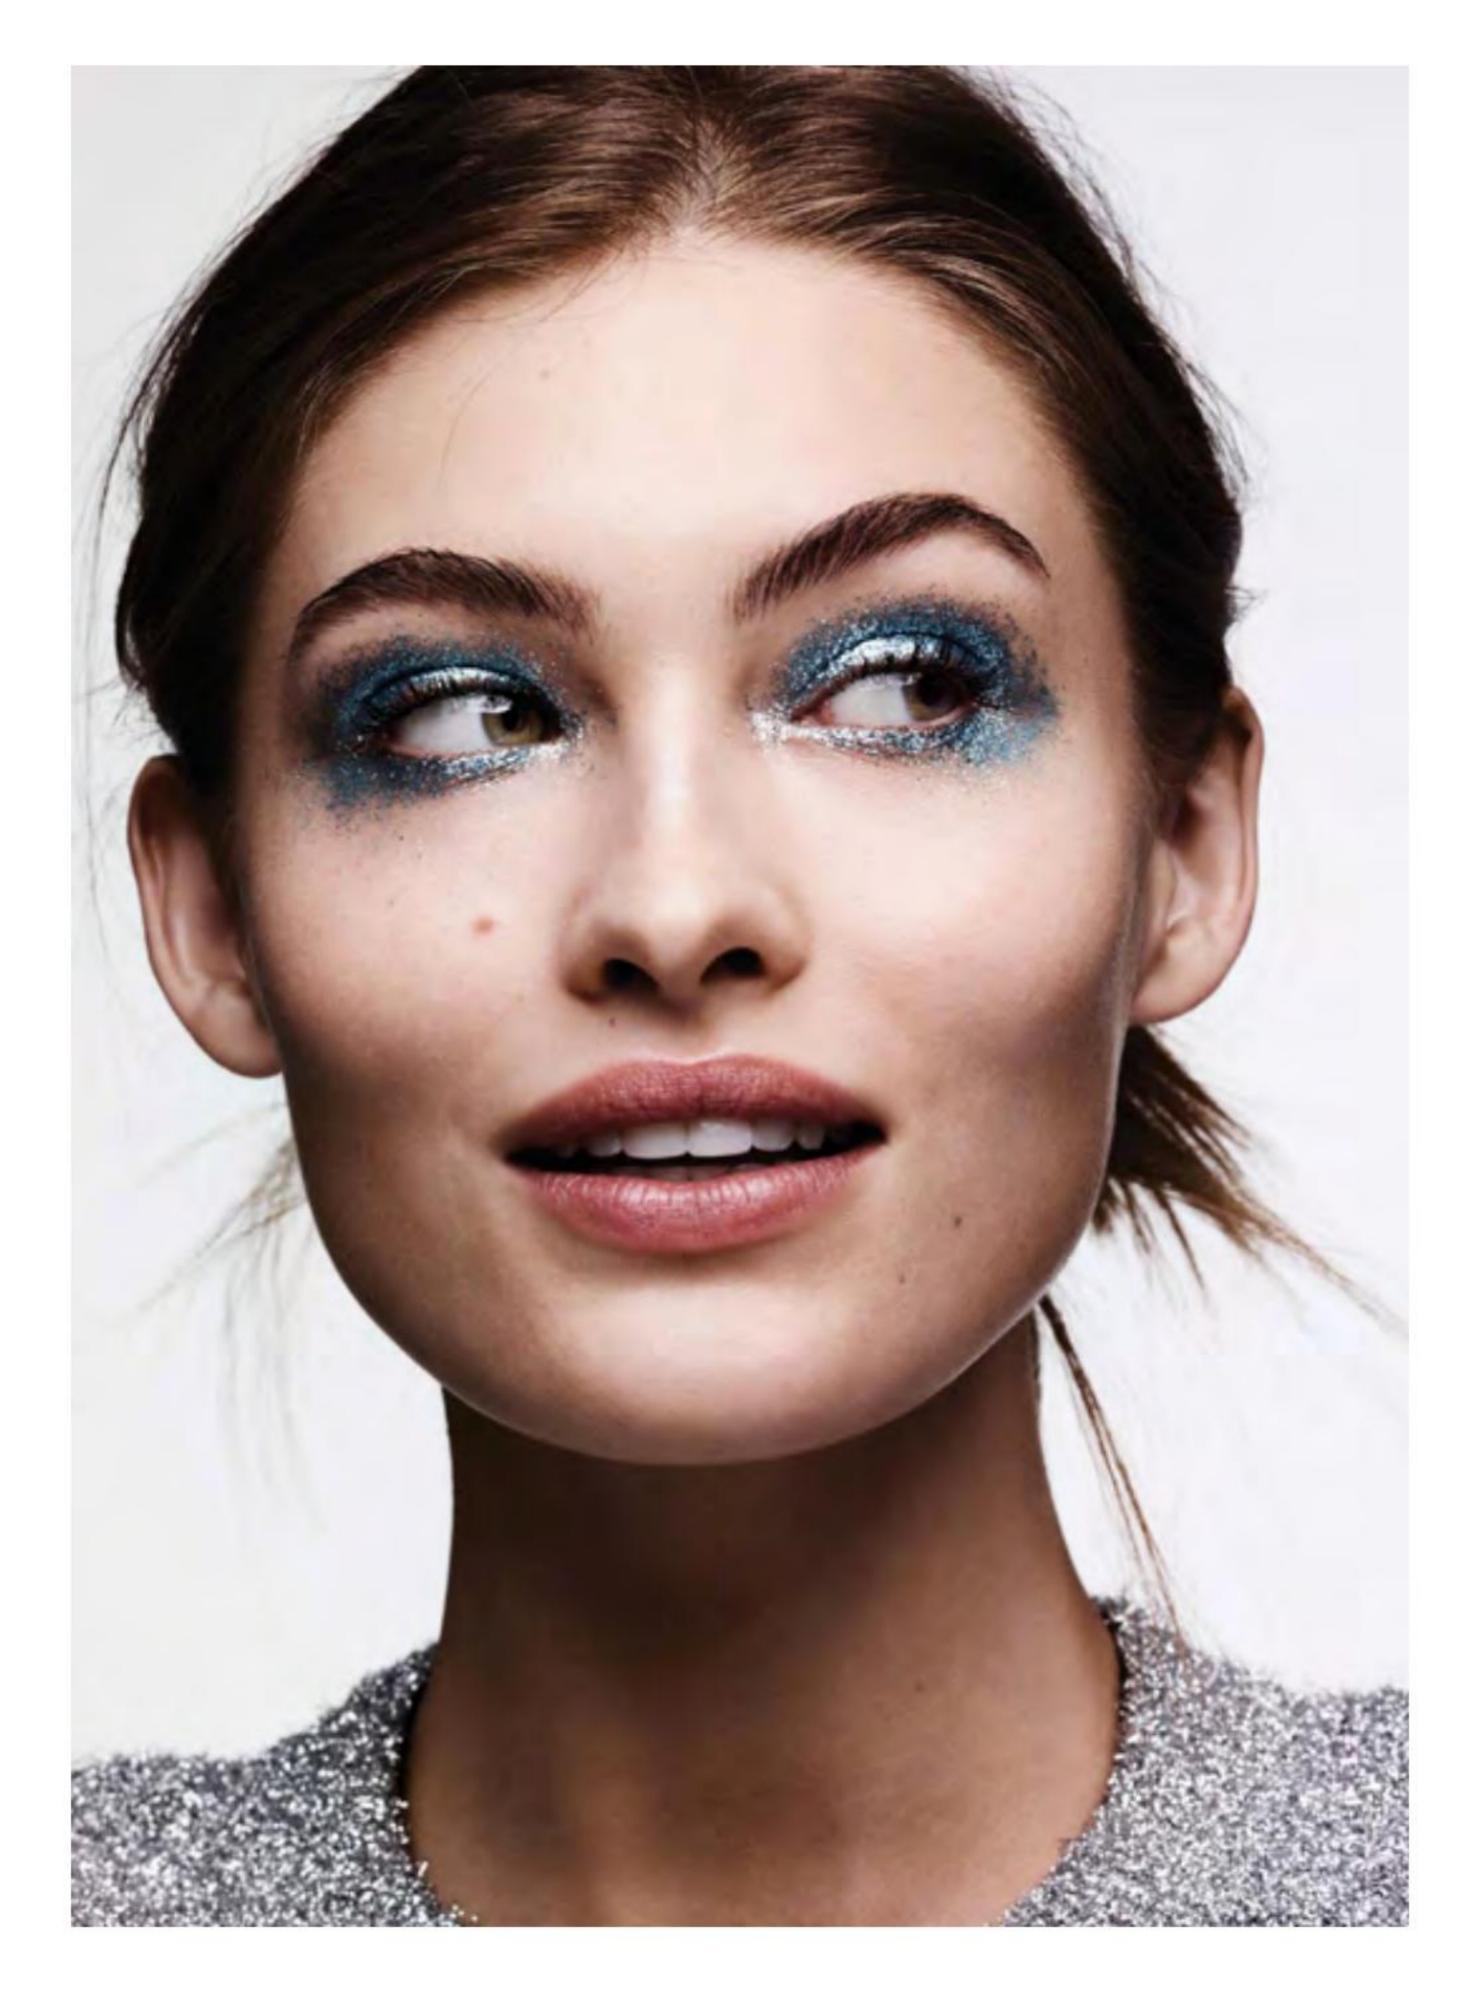

I love that Modeliste is fearless and experimental. I had so much fun on this shoot playing with the different wardrobe, hair and makeup, and lighting setups. I learned a lot and really pushed outside of my comfort zone. Thank you!

# SPRING:

# a time to renew & improve your skin

While you may be daydreaming of warmer weather, sun dresses, and sandals, the cold and dry Winter has left your skin crying out with the winter blues. As the sun starts to peek out of the clouds a little more and you gear up to welcome Spring your skin needs to gear up for warmer and sunnier weather.

### OUT WITH THE OLD, IN WITH THE NEW!

Spring cleaning should extend to your skin care. Go through your products and discard any products that may have been sitting in your drawer for a while. Opened and old products can harbor bacteria and lose efficacy. You should discard products which have expired or that have change in consistency and smell. Any products that contain SPF should be replaced with new ones after one year.

# GET YOUR SPRING BODY GLOW

Long periods of low humidity, diminished exposure to fresh air, wearing warm sweaters, and stylish boots have adversely combined to bring the perfect setting for undernourished and neglected skin. Exfoliating and moisturizing your skin will slough off dead skin cells and restore a natural glow to the skin. An easy once-weekly at home body scrub can be made by combining coconut oil and brown sugar. Gently rub the mixture to scaly dry spots on elbows, knees, and heels. Rinse off and follow with a moisturizer while the skin is still damp to lock in moisture.

#### **FACING SPRING**

While using a gentle scrub on your body to bring a natural glow, your face will benefit from an exfoliating product rather than a scrub or a brush. Different skin types and textures will have different needs for exfoliation. The right exfoliation for your skin type should leave your skin looking and feeling smoother and refreshed.

Different skin types and textures will have different needs for exfoliation. Over manipulating the skin is a big NO! Regular, excessive exfoliation using chemicals or mechanical methods can lead to damage on your skin. If your method is to exfoliate to the point that your skin turns red and flaky, STOP! Be gentle to your skin and treat it with care. A dermatologist can advise you on caring for your particular skin type.

#### DR. SCHWEITZER'S QUIK TIPS FOR SPRING READY SKIN

- 1. Wear sunscreen daily. Use a moisturizer for the face that has an SPF of 30 or higher.
- 2. Do not over-wash your face. Doing so strips your skin of needed moisture.
- 3. Stay away from tanning beds or the sun, do An organic spray tan instead.

- Moisturize your skin daily, this will make your skin look younger and brighter.
- 5. Limit the number of products you use on your skin. Using too many antiaging products can irritate your skin.
- 6. Be patient and give the product time to work. While some moisturizers can rather quickly plump up fine lines, most products take a few weeks to work.

# **Q&A with PEARL THUSI**

#### What inspired you to become an actress?

Growing up I thought everything on television was reality. Then I learned that all of my favorite stories were something I could actually be a part of and do in the form of acting.

I've always had a very active imagination combined with huge ambition and as a teenager, I finally decided I wanted to be an instrument of storytelling; entertaining people, touching them and bringing joy into hearts and homes.

Making the unreal a reality brings me so much joy, it's so exciting to play make believe as an adult and have people appreciate it. The escape that acting provides is something I treasure. When it is no longer about you but about considering and empathizing with someone else's emotions and making them your own, it is such an enriching experience

#### You've starred in the hit show Quantico- how do you describe your character Dayana?

She's really smart and has the guts to back it up. As all characters, she's complex, extremely brave and has survived some really unimaginable things that people will learn about as the story unfolds.

## Do you and your character share any similar personality traits?

Yes- it's often necessary to share traits with any character you play and of course take on other traits they exhibit. We've both suffered tremendous loss and use work to cover it up and deal with it when necessary. I'm often told I'm very strong and I take that as a compliment and I hope I apply it well to Dayana's character because - as this is television, her strength is amplified.

Dayana is also very loyal and deep down she's sensitive but treats it as none of anybody's business. She's an A-type personality and a lawyer.

#### You are also currently hosting the Lip Sync Battle Africa. What are some of your favorite memories on the show so far?

Every show had its moments and I hope I have time in my schedule to do the second season.

I think our first show with Boity and Cassper Nyovest was epic and another of my favorite shows had Tiwa Savage and Nomzamo Mbatha who really held nothing back. The chirping between the industry queens and the comedians was amazing.

#### If you had to perform in the Lip Sync battle, what would you most like to sing?

Something by Brenda Fassie, Rihanna or Beyoncé.

#### Describe your style.

Eclectic and sophisticated.

# What are some of your current favorite fashion trends of the season?

I love sunglasses and I love how people are fusing the old school styles with new vibrant and modern touches. Torn jeans are my favorite because you can play with that in so many ways.

#### What is your favorite type of jewelry accessory?

I love beautiful rings.

#### Do you have a favorite fashion Designer?

No - I draw inspiration from so many designers that it is hard to say. Tom Ford is a designer I love and hope to work with in the future. I'm obsessed with so many African designers too-David Tlale, Thula Sindi, Gert Johan Cotzee and Zarth.

#### What one thing do you need to have in your fridge at any given time?

Champagne. Only because I'm so busy and forget to find time to celebrate the small victories (and you never know who may come over)!

#### What's something you can't do?

Sing. I can hold a note, but I can't REALLY sing. LOL. It is so sad because I love doing it so much.

#### What's your favorite TV show of all time?

This is difficult. I'm not going to lie - I really don't have one that would be for all time. But right now- it's "How to Get Away with Murder."

#### Most memorable career moment so far?

I think definitely moving to New York for "Quantico." It has been the most life-changing opportunity.

#### What's your spirit animal? A panther

#### What surprises you most about people?

How quickly they forget who they are, what really matters and the fact that we let our egos and selfishness stop us from doing things that would make us as individuals and the world a better place.

#### What makes you laugh no matter what?

Good memories, especially the funny childhood ones. My daughter has the special power of melting what I believe is a hardcore heart.

#### If you had a superpower what would it be?

Teleportation and I'd also love to read people's minds or have the ability to fly.

#### What's your favorite song lyric of all time?

My favorite song is "Will you be there" by Michael Jackson. It is one of the most perfect songs to me.

# What's something that you have always wanted to try but you've been too scared to do.

This is a difficult one for me to answer because I try and do everything I want to do fearlessly. The only thing that stops me is the opportunity. One thing I can think of is skydiving.

#### What do you love about Modeliste Magazine?

Everything about it is sophisticated and sexy. It's just hot.

# **Q&A with ASHLEY BIANE FEATHERSON**

#### "Dear White People" seems like such an important and interesting plot line! Can you give us a synopsis of what it's about?

Dear White People follows a diverse group of students of color as we navigate a predominantly white Ivy League college where racial tensions are often swept under the rug. The series is a send-up of "post-racial" America that also weaves a universal story about forging one's own unique path.

## How do you describe the character you play?

Joelle Brooks is bold, intelligent, cultured, fashionable, hilarious (very quotable) and most importantly she is a fantastic friend. Joelle wears her heart on her sleeve and she isn't afraid to stand firm in her convictions.

#### Are you similar or different to your character you play on screen?

Joelle and I share many wonderful similarities. I take my friendships very seriously and I love that we have that in common. Being a good friend and loved one is an honor and a joy. Joelle and I both wear our hearts on our sleeves. As bold as Joelle is...she is still emerging from her shell. She's a sophomore in college and still learning who she is. That is where we differ...I am completely out of my shell and living OUT LOUD!

#### How did you first get into acting?

My older sister Nkena was into acting. We are 9 years apart so naturally I wanted to do everything she did. I was cast as the Bunny in "The Three Billy Goats Gruff" at 4 years old at Franklin Montessori School. I've been on stage or on screen ever since.

#### Did anyone specific inspire you to get into the industry?

I always wanted to be an actress. I've never had any other career aspirations. I vividly remember watching Kyla Pratt in "One On One" on UPN and saying to myself "If Kyla can do it...I can do it". All throughout middle school I begged my mom to move me to LA so I could pursue my film and television career.

She's a smart woman. She payed me no attention, simply kept encouraging me to study my craft, perform and get a degree in the arts. All of which I went on to do!

# If you could cast yourself in any role from tv or movies past, who would you love to play?

Love Jones as Nina Mosley (Film). Smash as Karen Cartwright (TV). Parenthood as Julia Braverman (TV)

#### Since your show is premiering on Netflix, what are some of your other favorite Netflix guilty pleasures that you like to binge watch?

Any and ALL documentaries (especially crime or sports docs), Stranger Things, The OA, The Crown, Orange Is The New Black, Narcos, Bloodline, House Of Cards & Master Of None.

#### What is your funniest red carpet moment?

Hasn't happened yet. Oh geez...now I'm nervous! All of my red carpet moments have been pretty serious!

# What are 5 things in your purse that you can't leave home without?

Red Lip (MAC Ruby Woo or RiRi Woo), Oil Blotting Sheets, Saint Laurent Shades, Black Ink Pen & TJ's Electrolyte Water w/a splash of lemon juice.

# What is your current handbag? Designer? Style?

Zara Large Tote Bag. It is my favorite everyday/travel bag!

#### What color do you wear the most of? BLACK

#### Who are some of your favorite musicians?

Donnie Hathaway, Sarah Vaughn, Billie Holiday, Erykah Badu, Lauryn Hill, The Stylistics, The Whispers, The Isley Brothers, Anita Baker, Jill Scott, Chance The Rapper, BJ The Chicago Kid, Kendrick Lamar, Whitney Houston, Solange

## What song always puts you in a good mood?

"Let It Go"-Janelle Monae

#### What 3 emojis best describe you? Red Heart, Woman With Crown (Queen), Eye Roll

# What piece of advice would you give your 15 year old self?

"Live without a care in the world Ash. Life only gets better."

#### Describe your ideal day off of work.

Going on a nice hike, grabbing lunch, then and heading to the spa with one of my closest girlfriends!

#### Where would you most like to travel to?

St. Tropez

# What are some of your tips for putting together a chic and stylish outfit with minimal effort when pressed for time?

You can never go wrong with denim, black, a leather jacket, a hat, hoop earrings, or a red lip! What I love about this look is you can dress it up or down with a dress, t-shirt, heels, sneakers, boots, whatever your hearts desires!

# What is a must have hair product for you?

EDGE CONTROL. Any kind as long as it's GOOD! My favorite of the moment is LottaBody Control Me Edge Gel!

#### What do you love about Modeliste?

I love that Modeliste embraces femininity and glamour unapologetically. As a woman who also embraces both, it is quite refreshing!

# VERSACE

# **Q&A with KEESHA SHARP**

#### Lethal Weapon is such a fun comedy-drama series where you play Roger Murtaugh, played by Damon Wayans, wife. What is your favorite part of this role?

I love being the strong woman who can do it all. There are some roles that may focus on being the supportive wife or being the independent powerful woman or being the stylish sexy one. I think Trish is all of those things as a high powered defense attorney, mother, supportive wife and even as a bridge between Roger and Riggs.

#### What are the most challenging aspects of filming this series?

I think the schedule. Because Damon and Clayne have so many scenes from action to drama to comedy, our production staff has an incredible task of fitting it all in. We have 2 units most times and it feels like shooting a film! But, they do it and do it great!!

#### What sort of person is going to enjoy this show?

Everyone. It really has something for everyone. But mostly, anyone who enjoys to be entertained. It is a heart filled story with adrenaline and laughter. Just a good time!

## Are you a fan of the old Lethal Weapon films?

Yes! I watch them whenever they come on! When I first got an audition for this, I worried about a TV version. Then I read the script and it's the only show I wanted to do.

#### How is today's Lethal Weapon television series similar?

It's based on the original story and depth of the original movie. And in that, Matt Miller and the Producers nailed it. Even more, they found a way to make it contemporary while keeping the style true.

#### How is it different?

Well, I think it is very current. Clayne and Damon bring their own personalities to the roles which honors the character but departs from Gibson and Glover. Of course my role is probably the most different as Trish is not a stay at home Mom.

# What do you and your costars like to do on set when you are in between takes?

Rest! When not doing that we catch up with each other. And there is a lot of joking around.

#### Do you share any similarities between yourself and the character you play on this show?

Yes, I share many qualities with Trish. As a mother who is passionate about her career AND her family. As a woman who encourages her husband. And, like Trish and Rog, my husband and I have been married 20 years and we make sure to keep it sexy. Our love for each other surpasses time. Another similarity is the fact that Trish wants to help those who can't help themselves.

You're also set to star in a very different type of production. You are cast as Thurgood Marshall's wife in the upcoming film Marshall. Can you tell us about this upcoming project and the character you play? Many people know Thurgood Marshall from being on the Supreme Court or from Brown Vs Board of Education but this film focuses on an early case in 1940 about a man wrongly accused in Connecticut. I play his first wife Buster and the film shows a period when they were going through challenging times.

# If you could have dinner with anybody, dead or alive, who would it be?

There are SO many throughout time it is hard to pick. Right now what's coming to me is Leonardo Da Vinci. He had such a creative and intelligent mind for art, invention, writing. I would imagine he would be fascinating to talk with.

#### How do you describe your current style?

I change it up a lot but the only thing consistent is a high heel or platform! Usually I like a Sexy Stylish Casual look. But I'm a Gemini so my mood changes.

#### Would you rather be overdressed or underdressed?

Overdressed for sure.

When it comes to jewelry, what types of pieces are you drawn to? Extremely simple. I also love leather, leather, leather.

# What is your current favorite shade of lipstick?

Rich reds. Currently "Icon" by HOURGLASS

#### If you were on a desert island and could only bring one beauty product, what would it be?

I would've said lipstick but the desert island has me thinking Coconut Oil. I would use it in my hair, on my skin and for medicinal purposes.

#### Where is somewhere you would like to travel to that you haven't been yet?

Iceland. We have always wanted to go there. The land of Fire and Ice.

# What is your favorite place that you have traveled to that you would go back to in a heartbeat?

Kauai

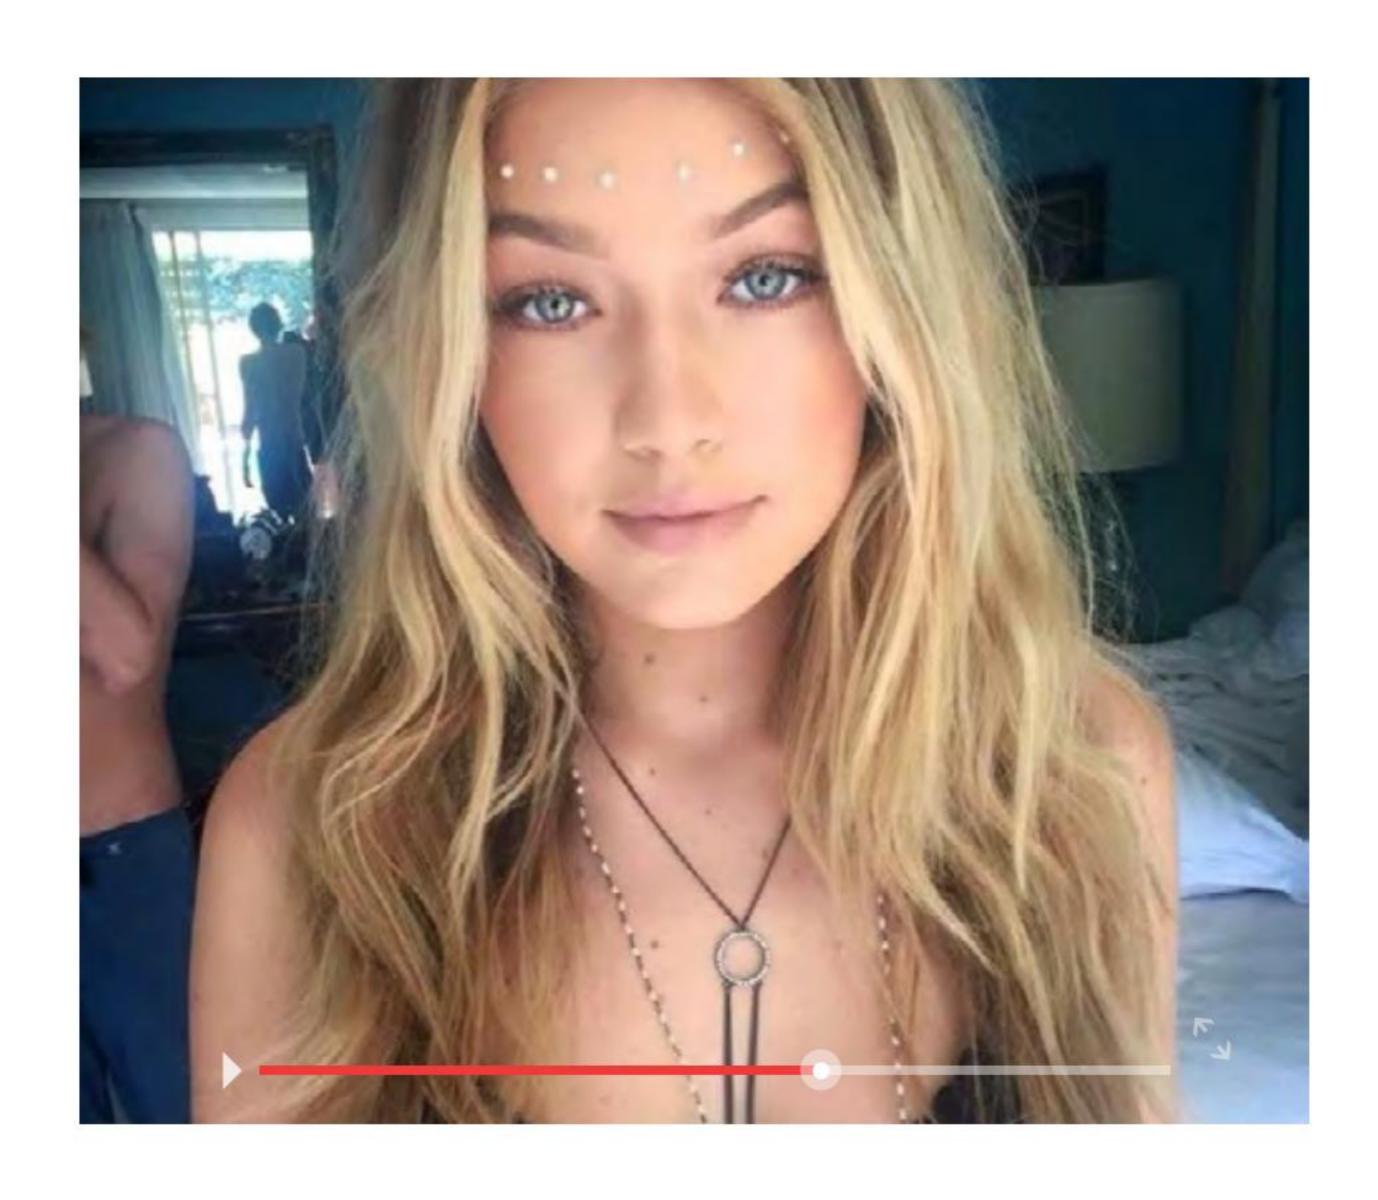

# Do you have any upcoming projects that you are able to share with us? Marshall film, hopefully season 2 of Lethal Weapon and the other things that are still not announced yet:)

# What's your favorite thing to do when you don't have to be on set?

I love being at the gym, dance class or watching TV at home.

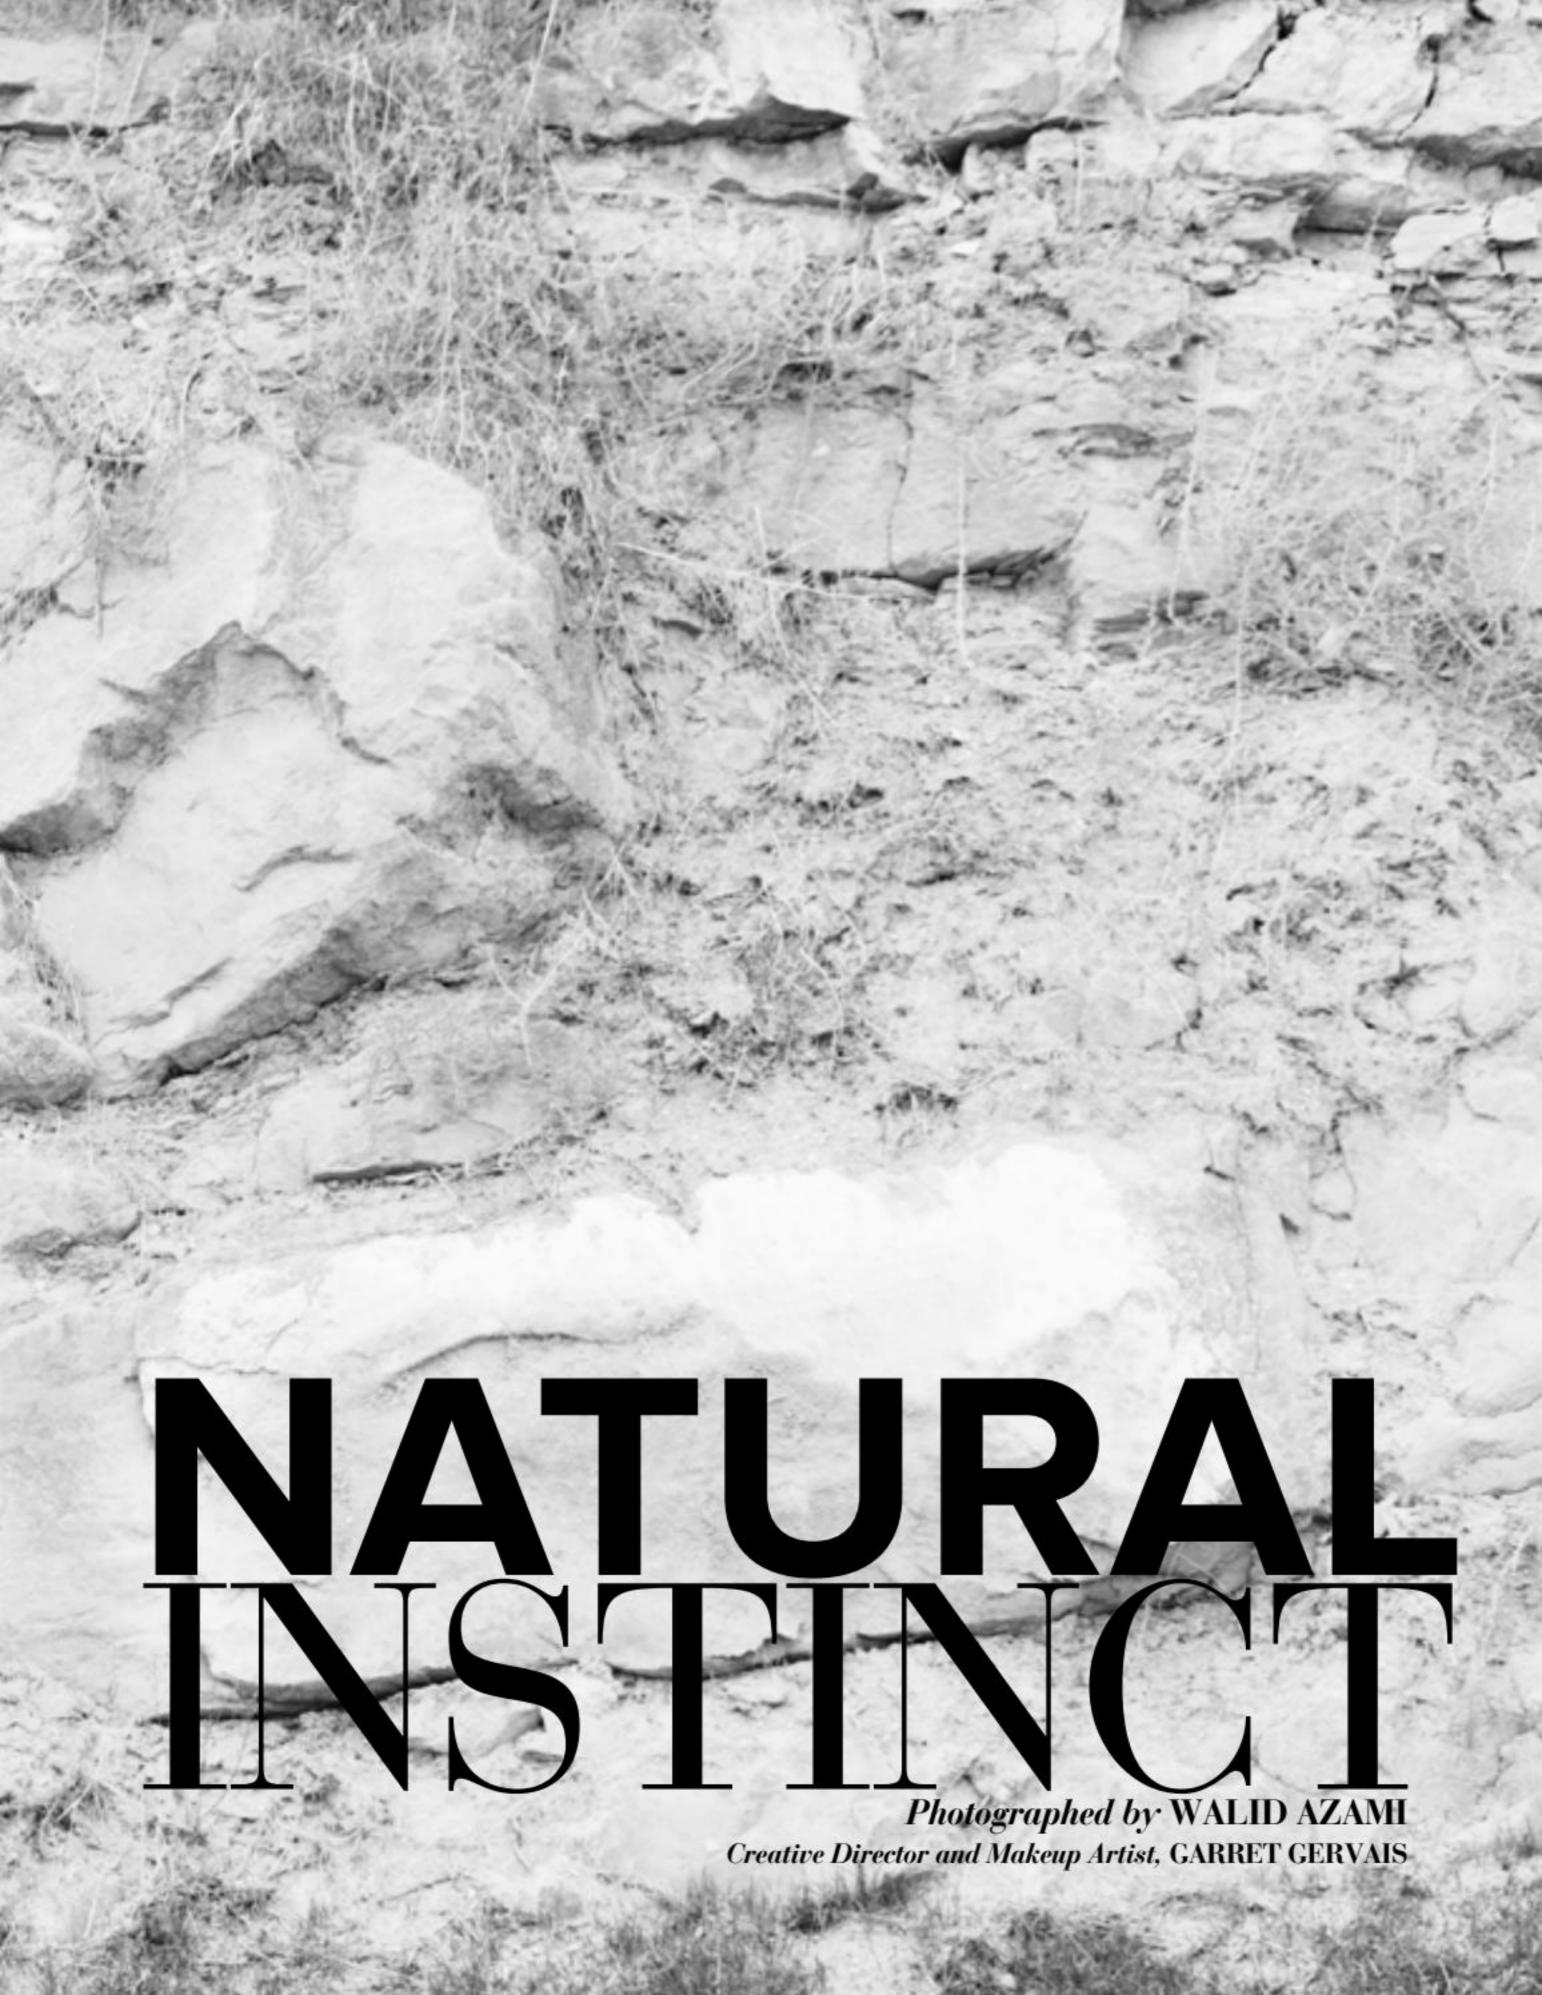

#### Why do you love Modeliste?

Fashion Fashion! I love the high quality of the images and the content. As a fan of style and beauty, I love to look at the best and newest style and trends.

Work-related travel or the reaching of a wider audience is possible during this cycle. Your worldly status may change for the better. Relationships are seen now as serious matters. Partners are no longer simply for amusement or mirrors of your ego. You may take special joy in sharing ideals, a common cause, or a sense of belonging with others.

#### **GEMINI**

This period brings subtle changes to your value system. Some of you are moving towards a less materialistic value system, and others may be encountering unexpected circumstances that bring about a fluctuating or uncertain income. You will eliminate some deep-seated habits and attachments that have been keeping you back from feeling emotionally free. Your hunches, compassion, and intuition, in fact, can support and further your professional goals. A spirit of friendship is brought to an existing close partnership. You emerge healthier and stronger by the end of the month.

This is a time when you can rid yourself of self-destructive tendencies. You'll be building your resources, getting your finances straightened out, and learning a great deal about the people around you. This cycle also brings a certain measure of spiritual protection and enhancement. There may be unexpected events that free you from confining situations or past conditioning patterns.

#### LEO

Your own awesome strength and faith is always there to draw upon this month. You could be working on a project in solitude or behind the scenes, and when you do come out with it, it could be quite profitable. You may have been facing difficulties satisfying your libido and encountering problems with intimacy. The more willing you are to put yourself in the limelight, the more positive the rewards. This is a time when you need to define, understand and crystallize your significant relationships with others.

### ARIES

It's an exciting month ahead-one in which you receive rewards for what you do best. Career success, increased recognition for your talents and efforts, and a focus on close personal partnerships is what this month is about for you. Imaginative undertakings could boost your income. Strengthening close ties with a special someone is likely. However, excessive self-interest and willfulness can undermine your close personal relationships - and can actually work against your better interests. If involved in a casual love relationship, pressure emerges concerning the need for evaluating your commitments.

You are likely to experience events that highlight the necessity to share and trust.

#### LIBRA

Transformative partnerships pull you to adjust your values and define what your need to be truly happy from the inside out.

#### PISCES

Work that involves serving others may begin now and bring you much joy. You are also learning about the comfort levels of others. Essentially, you are learning to share and to surrender yourself (in a balanced manner!) to intimacy.
